

1. WNF-A301-401-501

WNF-A301 Inline Fuse Holder

WNF-A301 Inline Fuse Holder Wiring Harness ATS/ATC/ATO 30AMP Blade Automotive Fuse Holder

- 1.Allow you to splice it into any project.
- 2.Inline fuse holder for ATC/ATO blade fuse.
- 3.Water resistant, This fuse holder comes with cap to seal out moisture.
- 4.Fuse holder dimension (42x35x13mm),Support up to 40A Standard fuses for 12V

WNF-A301 Inline Fuse Holder Wiring Harness ATS/ATC/ATO 30AMP Blade Automotive Fuse Holder

What is Car Fuses & Inline Fuses Holder:

An automotive fuse is an electrical component that is designed to protect other components, devices, and wiring from any damage that might occur due to excess current flow. When a circuit fails or is abnormal, the current is constantly rising, and the increased current may damage some important devices or valuable devices in the circuit, and may also burn the circuit or even cause a fire. If

the fuse holder fuse holder is correctly placed in the circuit, the fuse will blow itself when the current abnormally rises to a certain height and a certain degree, and a dangerous situation such as a fire may occur. At this time, the fuse holder acts to isolate from the outside world, thereby protecting the circuit from safe operation.

The Blade Fuses Pack & Car fuses holder provide everything you need to protect your vehicle & electrical devices from a short circuit or overload.

Installation: Cut this looped wire about in the middle first, one of the ends connect to your power source, the other to the accessory power wire that you are attempting to power.

Application - In-line fuse holder

Fit for cars, trucks, Jeeps, ATVs, UTVs, SUVs, boats, etc. Adding circuit protection for car alarms, GPS, car recorder, dashboard camera, VCD player, etc.

Conductor of car fuses holder: Tinned copper

Selecting high grade copper as conductor.

The surface is coated with aluminum in order to improve the heat and oxidation resistance of the conductive metal and above all, it has better solderability.

Fuses holder automotive - Specially designed cap

With a water resistant cap - tight sealing, efficiently avoiding water and dust from entering, upgrading waterproof performance.

Product Name	Car fuse holder blade fuse
Type	In-line ATS/ATO/ATC fuse holder
Loop Length	12inches /30cm
Amp Range of fuses holder automotive	1-30A

Fuse holder voltage Max operating	32V
