Specification:

Type: fuse holder and fuse

Cable type: 16AWG

Max voltage: 32V . current: 15A
Operating temperature: 30°C~170°C
Temperature controlled range: 30°C~170°C
Rated current: 15A, 32V, DC

Brand new and Specialized Repair Car Low Profile Standard Blade Type Fuse Holder Connector 10A, Heavy Duty Wire Extension for for Hard-To-Reach Vehicle Fuse Box Panel

2 Pcs car fuse connector fits for ATM/APM Standard Fuses, The 11 in Standard fuse holder can be used in a small space where it is inconvenient to directly install the fuse, and the fuse can be transferred from the small space to the outside

The design of the Standard pointed tip allows you to easily insert the fuse connector into the fuse box, and quickly and easily check the wiring problems, prevent the circuit overload from burning out the car components

The tight design ensures that the mini fuse will not fall easily, so you don't have to worry about the electronics on the car being unusable due to the fuse falling

Access to the fuse is by means of a snap-fit lid on the top of the holder, Implementation of standards: National Standard

How to Install:

Simply to remove the existing fuse from the fuse holder, insert that fuse into the bottom slot of the fuse tap.

Insert a suitable fuse for the new accessory in to the top slot.

Crimp your new wire to the terminal on the fuse tap.

Product Name	Car fuse holder blade fuse
Type	In-line ATS/ATO/ATC fuse holder
Loop Length	12inches /30cm
Amp Range of fuses holder automotive	1-30A

Fuse holder voltage Max operating	32V
