WNF-A407 Car Fuse Holder Fuse Tap

WNF-A407 Standard 32V 20A Universal Fuse Holder for Automotive Truck SUV Car Fuse Tap Adapter

- 1.AC Adapter Current 20 Amps
- 2.Brand Welfnobl
- 3.Voltage 32 Volts
- 4.Mounting Type Holder

WNF-A407 Standard 32V 20A Universal Fuse Holder for Automotive Truck SUV Car Fuse Tap Adapter

About this item

[PRODUCT FUNCTION] Welfnobl fuse holder tap adapter connector has been carefully engineered to seamlessly integrate with your vehicle's existing components, eliminating the need for any additional modifications. This ensures a hassle-free installation process that is quick, straightforward, and convenient.

[PRODUCT DIMENSION] Standard 32V 20A. Please actually measure the size of your fuse holder before purchasing.

[WIDE APPLICATION] Universal design, compatible for most vehicles.

[SIMPLY TO USE] It could correctly replace the original parts, no tools required to install.

[SHIP CONTENT] 1 Pc - Fuse Holder

Car Fuse Holder Connector: Professional repair automotive thin fuse holder connector 20A, heavy duty wire extension for hard to automotive fuse box panels, fits for ATM/APM small Fuses.

The tight design ensures that the small fuse will not fall easily, so you don't have to worry about the electronics on the car being unusable due to the fuse falling.

The mini-tip design allows you to easily insert the fuse connector into the fuse box to check for wiring problems quickly and easily.

Cord length: approx. 230 mm/9.06 inches Maximum current: 20A.

Suitable for many car series. To prevent circuit overloads from burning out car parts, it's easier to simply replace the fuse than to replace the parts directly. If the line is blocked, you can check whether the fuse is good or bad.

Description:

The fuse tap adapters are made from good quality materials, good electrical conductivity, and melting resistance, commonly fits for blade style fuses.

The fuse tap provides one fuse holder to protect existing circuit, and a second fuse holder to protect new circuit. Easy to install, just plug into an existing fuse holder.

The fuse protects your car and your electrical device from short circuits, overload, etc. Transparent housings for viewing the fuse link status and quick detection of a blown fuse, clearly marked with amperage and color coded on the top for easy identification.

Use on cars, trucks, SUVs, boats, and more electrical devices.

Specification:

Material: Plastic, Metal

Colour: Black, Red

Voltage: 32V

Fuse Amperage: 20A

Fuses Size: 19x19mm / 0.75"x0.75"(L*W)

Fuse Adapter Size: 29.5x2.5x2.3cm / 11.61"x0.98"x0.91"(L*W*H)

How to Install:

Simply to remove the existing fuse from the fuse holder, insert that fuse into the bottom slot of the fuse tap.

Insert a suitable fuse for the new accessory in to the top slot.

Crimp your new wire to the terminal on the fuse tap.

Product Name	Car fuse holder
Type	In-line ATS/ATO/ATC fuse holder
Material	Plastic, metal
Amp Range of fuses holder automotive	20A
Fuse holder voltage Max operating	32V
Color	Black/RED
