

1. WNF-B0106

WNF-B0106 6 Way fuse holder for car

WNF-B0106 Blade Fuse Box Block Holder 12-24V 6 Way Car Boat Power Distribution Panel Board

6-Way Auto Blade Fuse Holder: Storing up to 6 blade fuses up to 30A max per. And our fuse block has negative ground connections (1x ground input and 6x ground outputs) for superior functionality. Additionally, dual positive power connections achieve a high maximum operating amperage of 100A.

Sturdy and Robust Construction: This 6-way fuse holder is made of flame-retardant material, which is shock-resistant, corrosion-resistant, high temperature resistant and aging resistant, with no fracture, deformation, combustion or short circuit phenomenon.

Fuse Protective Cover: Comes with a transparent plastic cover for extra protection against dust and moisture.

Easy Installation: This holder box can be fixed with the 2 pre-molded holes., very convenient.

Wide Application: This 6-circuit blade fuse box is widely applicable in cars, RVs, buses, ships, etc.

WNF-B0106 Blade Fuse Box Block Holder 12-24V 6 Way Car Boat Power Distribution Panel Board

Fuse block Automotive Blade 6Way fuse box ATC/ATO Blade Fuse Box 6 Fuses (5A/10A/15A/20A/30A/35A) Included

Can be secured via 2 pre molded holes, each fuse holder is numbered to make fuse installation and identification as easy as possible

Plastic and Metal Material, WELFNOBL fuse box is made by tin-plating copper components, non-toxic and tasteless layer, good hardness and conductivity, durable construction, quality assurance

Sturdy and robust construction,with transparent cover for dust and moisture protection,suitable for middle-sized blade fuses

Cable connection via side, plated 6.3mm (standard) blade terminals. Convenient for examination and repair, easy to troubleshoot in outdoor; widely used in airplane, subway, bus, ship, tanker, modified car, eco-car, etc

Feature:

6-circuit ATC/ATO/ATF blade fuse block; max 40A per circuit

Negative ground connections (1x ground input; 6x ground outputs; dual positive power connections achieve high operating amperage of 100A max. per fuse block

Marine-grade stainless steel input & output screws bolts and full size cover provide corrosion protection

1" fuse placement clearance compatible with E-T-A Thermal Circuit Breakers.

Thumbscrew affixed to cover; labeling sticker included.

Universal blade port for mini, maxi , ATC/ATO/ATR/ATS fuse, comes with ATC/ATO Fuses.

ATC/ ATO Fuses protect your power distribution system:

You need them to prevent damage to your equipment from current overload. The job of an ATC / ATO fuse is to protect any of your equipment's vital wiring. Vehicle wiring can be pretty deeply entrenched and integrated into an electrical system making it extremely difficult to locate and replace.

When a current large enough to fry a wire or damage a vital component is drawn through some electrical system in a vehicle, the

vehicle's ATC fuses will burn out first and prevent that current from doing any major damage.

Product Name	Car Fuse Holder Blade Fuse
Input	DC12-32V
Input / Output current	40A max. Per circuit
Size	115 x 53 x 40 mm
Material	Plastic + Metal
Widely Used	Cars, Vans, Motorcycles, Quads, Boats, Marine, Tractor & Many other Automotive Uses
Package	1 x 6 Way Fuse Box WITHOUT FUSE

Note: If you need other needs, welcome to send us an enquiry!
