WNF-B1106 6 Way Waterproof Fuse Block with Zinc Alloy Fuses

第二部分

Short description:

WNF-B1106 6 Way Automotive Waterproof Fuse Block with Zinc Alloy Fuses with Ground and Cover

1. Easy to install for various vehicle models.
2. Country of Manufacture: CHINA
3. 6-way fuse box is made of friendly wear-resistant PBT material.
4. Protect your vehicle from power surges, short circuits and other dangerous conditions.

Other type with different combination: WNF-B1104 & WNF-B1108

第三部分

WNF-B1106 6 Way Automotive Waterproof Fuse Block with Zinc Alloy Fuses with Ground and Cover

6 Way Automotive Waterproof Fuse Block with Zinc Alloy Fuses. This fuse block is designed to provide reliable and durable protection for your vehicle's electrical system, ensuring that your circuits are safeguarded against overloads and short circuits.

The fuse block features six individual fuse slots, allowing you to protect multiple circuits within your vehicle. Each slot is equipped with a high-quality zinc alloy fuse, known for its excellent conductivity and resistance to corrosion. This ensures that your fuses will provide long-lasting protection for your electrical components.

In addition to the zinc alloy fuses, the fuse block also includes a ground connection to ensure proper grounding for your circuits. This is essential for maintaining the safety and functionality of your vehicle's electrical system. The included cover provides added protection, keeping the fuses and connections safe from moisture, dust, and other environmental factors.

One of the key features of this fuse block is its waterproof design, making it suitable for use in a variety of automotive applications. Whether you're working on a car, truck, boat, or RV, you can trust that this fuse block will provide reliable protection in any environment.

Installation is made easy with the included mounting hardware and clear labeling for each fuse slot. This ensures a hassle-free setup and allows you to quickly identify and replace fuses when necessary.

Overall, the 6 Way Automotive Waterproof Fuse Block with Zinc Alloy Fuses is a must-have for anyone looking to protect their vehicle's electrical system. Its durable construction, waterproof design, and reliable performance make it an essential addition to any automotive electrical setup.

Whether you're a professional mechanic or a DIY enthusiast, this fuse block is sure to meet your needs for reliable circuit protection.

Model Number	WNF-B1106
Input Voltage	12V-24V DC
Max Voltage	32V
Quantity of Fuse Slot	6 Way
Fuse Type	ATC or ATO
Material	ABS, Copper
Terminal type	Screw
Country of Origin	China
