WNF-B1208 8 Way DC Universal Auto Blade ATO ATC Fuse Block Box with Cover

Other type with different combination: WNF-B1204 & WNF-B1206

8 Way DC Universal Auto Blade ATO ATC Fuse Block Box with Cover, the ultimate solution for organizing and protecting your ATO and ATC fuses. This universal fuse box is designed to accommodate a wide range of automotive and marine applications, providing a secure and reliable way to manage your electrical systems.

8 individual fuse slots, this fuse block allows you to easily organize and protect your ATO and ATC fuses, ensuring that your electrical circuits are properly safeguarded. The included cover provides an extra layer of protection, keeping the fuses safe from dust, moisture, and other environmental factors.

With its universal design, this fuse box is compatible with a variety of vehicles, making it a versatile and practical choice for any automotive or marine electrical system. Whether you're working on a car, truck, boat, or RV, this fuse block is the perfect solution for managing your ATO and ATC fuses.

Installation is a breeze, thanks to the included mounting holes and terminals. Simply secure the fuse block in place and connect your electrical circuits for a professional and organized setup. The transparent cover allows for easy visibility of the fuses, making it simple to identify and replace any blown fuses as needed.

Constructed from high-quality materials, this fuse block is built to withstand the rigors of the road and the elements, ensuring long-lasting performance and reliability. Whether you're a professional mechanic or a DIY enthusiast, this fuse box is an essential addition to your electrical toolkit.

Don't let loose fuses clutter up your electrical system. Invest in our 8 Way DC Universal Auto Blade ATO ATC Fuse Block Box with Cover and enjoy the peace of mind that comes with organized and protected fuses.
