

WNF-D501A 80 100 AMP ANL Fuse Holder

3 Pack 80 100 AMP ANL Fuse Holder Kit + 80A 100A Fuses 0/2/4/8 Gauge AWG Fuse Block for Car Audio Truck DIY

- 1、 100 AMP ANL Fuse Holder + 100A ANL Fuses, Solid Brass 0/2/4 Gauge (3 PACK), Has stable conductivity.
- 2、 Unique swing-out design of ANL fuse allows replacement of the fuse without removing fastener.
- 3、 ANL fuse holder is widely applied to inverter, audio amplifier and other high current applications.
- 4、 The anl fuse holder 1/0 base is made of flame-retardant ABS and has an insulating layer at the bottom.

3 Pack 80 100 AMP ANL Fuse Holder Kit + 80A 100A Fuses 0/2/4/8 Gauge AWG Fuse Block for Car Audio Truck DIY

Features:

The anl fuse block bolt specification is M8*1.25, which is the size of commonly used terminals.

Gold tone plated metal sheet construction, durable and reliable to use, heat resistant, melting resistance and good conductivity, working for car audio and other high current applications.

Car audio ANL fuse holders are mainly used for the connection of audio power lines to prevent excessive current and protect electrical appliances.

ANL fuse holder suitable for 0 2 4 gauge wire;With 3pcs ANL Fuse Holder and 3pcs ANL fuse.

When it comes to ensuring the safety and efficiency of your car stereo or truck DIY project, the 80-100 AMP ANL Fuse Holder is an essential component. This 3-piece kit comes with 80A and 100A fuses and is designed to accommodate 0/2/4/8 gauge AWG fuse boxes, making it a versatile and reliable choice for a variety of applications. Whether you are an experienced car audio enthusiast or a DIY truck enthusiast, understanding the importance and functionality of the 80-100 AMP ANL fuse holder is critical to a successful, safe installation.

The 80-100 AMP ANL fuse holder is designed to provide the best possible protection for your car stereo or truck electrical system. This fuse holder is capable of handling high amperage, ensuring connected components are protected from potential damage in the event of a power surge or electrical fault. 80A and 100A fuses are included in the kit for flexibility in meeting different power requirements, while compatibility with size 0/2/4/8 AWG fuse boxes makes it suitable for a variety of wiring setups. This level of adaptability and protection is critical to maintaining the integrity of your car stereo or truck DIY project.

Product Name	Fuse holder
Model	WNF-D501W/WNF-D501A
Department	Unisex Adult
Mounting Type	Holder
Current Rating	30Amps-300 Amps
Other display features	Wireless
Voltage	24 Volts, 12 Volts

Product Dimensions	4.8 x 1.46 x 1.46 inches
Material	Brass
Fuse Holder Type	ANL fuse
