WNF-E201 10A Plastic Plug-In Type Auto Mini Car Fuse

第二部分

Short description:

WNF-E201 10A Plastic Plug-In Type Auto Mini Car Fuse Blade for RV Marine Car

- 1. Voltage: 12 Volts**
- 2. Fast acting blade auto fuse.**
- 3. Blade fuses is made of high-quality zinc alloy.**
- 4. Amplifier rating is clearly indicated in white, allowing you to easily read the amp rating.**

第三部分

WNF-E201 10A Plastic Plug-In Type Auto Mini Car Fuse Blade for RV Marine Car

When it comes to ensuring the safety and functionality of your vehicle's electrical system, the type of fuses you use can make a significant difference. The WNF-E201 10A Plastic Plug-In Type Auto Mini Car Fuse Blade is a reliable and essential component for RVs, marine vehicles, and cars. This high-quality fuse blade is designed to protect your vehicle's electrical circuits from overloading or short circuits, safeguarding sensitive electronic components and preventing potential fire hazards.

The WNF-E201 10A fuse blade is engineered to meet the demanding requirements of automotive and marine applications. Its plug-in design allows for easy installation and replacement, making it a convenient choice for both professional mechanics and car owners. With a 10A rating, this fuse blade is suitable for a range of low to moderate power applications, providing versatile protection for various electrical systems.

Constructed from durable plastic, this fuse blade is built to withstand the rigors of vehicle operation, including temperature fluctuations and vibrations. Its reliable performance ensures that your vehicle's electrical components remain safe and operational, giving you peace of mind during your travels.

Whether you're embarking on a road trip in your RV, navigating the waters in your marine vessel, or simply commuting in your car, the WNF-E201 10A Plastic Plug-In Type Auto Mini Car Fuse Blade is an indispensable safety measure for your vehicle's electrical system. By investing in high-quality fuses like the WNF-E201 10A, you can protect your vehicle from potential electrical failures and ensure a smooth and secure driving experience.

Brand	WELFNOBL
Voltage	12V DC
Mounting Type	PCB Mount

Current Rating	2A /3A / 5A/ 7.5A/ 10A/ 15A/ 20A/ 25A / 30A
Fuse Type	ATC or ATO
Material	Plastic, Zinc
Terminal type	Pin Terminal
Country of Origin	China
Size	Small
What You Get	1X Fuse Holder
