WNF-H604 6*30mm Automotive Small Blade Splashproof Glass Fuse Holder with Wire

Are you looking for a reliable and durable solution to protect your automotive electrical system from short circuits and overloads? Look no further than the WNF-H604 6*30mm Automotive Small Blade Splashproof Glass Fuse Holder with Wire. This in-line screw type fuse holder is designed to accommodate 5x20mm glass fuses, providing excellent bending performance and electrical conductivity. Let's delve into the features and benefits of this essential automotive component.

The WNF-H604 fuse holder is engineered with a splashproof design, ensuring that your electrical connections remain protected from moisture and other environmental factors. Its in-line screw type construction allows for easy installation and secure connection, making it an ideal choice for automotive applications. With its good bending performance and excellent electrical conductivity, this fuse holder effectively safeguards your wiring and electrical equipment from potential hazards, giving you peace of mind on the road.

This automotive blade glass fuse holder is a must-have for any vehicle owner or automotive enthusiast. Its compact size and durable construction make it suitable for a wide range of automotive electrical systems. Whether you're working on a classic car restoration project or upgrading the electrical components in your modern vehicle, the WNF-H604 fuse holder is a versatile and reliable solution that will enhance the safety and performance of your automotive electrical system.

In addition to its protective capabilities, the WNF-H604 fuse holder is designed to facilitate easy fuse replacement, ensuring minimal downtime in the event of a fuse failure. Its compatibility with 5x20mm glass fuses makes it a versatile choice for various automotive applications, providing a secure and reliable connection for your electrical components. With the WNF-H604 fuse holder, you can rest assured that your vehicle's electrical system is well-protected and ready to handle the demands of everyday driving.

In conclusion, the WNF-H604 6*30mm Automotive Small Blade Splashproof Glass Fuse Holder with Wire is a high-quality, reliable solution for safeguarding your automotive electrical system. Its

in-line screw type design, compatibility with 5x20mm glass fuses, and splashproof construction make it an essential component for any vehicle. Upgrade your automotive electrical system with the WNF-H604 fuse holder and enjoy enhanced protection and peace of mind on the road.

Model Number	WNF-H604
Cable Size	18 AWG
Brand Name	WELFNOBL
Mounting Type	Surface Mount
Rated Current	20A
Material	Glass, Plastic
OEM	Available
Fuse size	6*30mm
What You Get	1X Inline Fuse Holder
