WNS-C02 New Dual Port USB Modified Car Charging Toyota with Digital Display Meter

Other type with different size:WNS-C05

We are thrilled to introduce our latest innovation, the Dual Port USB Modified Car Charging Toyota with Digital Display Meter. This cutting-edge car charger is designed to provide convenience and efficiency for all your charging needs while on the go.

Equipped with a new USB port and voltmeter display, this car charger allows you to easily monitor the voltage of your car's battery, ensuring that you are always aware of its status. The addition of the voltmeter display provides an extra layer of safety and peace of mind while charging your devices in your vehicle.

In addition to its advanced features, this car charger is designed for optimal performance and durability. It comes packaged in a separate static bag, ensuring that it arrives in pristine condition and is ready for immediate use. The 18th red and black line, measuring 60cm, provides flexibility and convenience for installation in your vehicle.

One of the standout features of this car charger is its QC3.0 fast charging capabilities. With this technology, you can charge your devices at an accelerated rate, saving you valuable time and ensuring that you are always powered up and ready to go.

Whether you are on a road trip, commuting to work, or simply running errands, the Dual Port USB Modified Car Charging Toyota with Digital Display Meter is the perfect companion for keeping your devices charged and ready for use. Its sleek design and advanced functionality make

it a must-have accessory for any vehicle.

Experience the convenience and reliability of this exceptional car charger and never be without power on the road again.
