

Jump-starter battery

6FM12 (12V12Ah)

LONGWAY Jump-starter batteries are used for emergency start power supply, which can cope with various emergency situations. The series of batteries adopts thin sheet multi-board design, and the special lead paste formula improves the instantaneous high current (100-1000A) capacity of the battery, which can meet the requirements of automobile start-up in emergency situations. The products are UL, CE, RoHS certified and can be shipped by sea and air.
