

## KEPERSURF®-153 Surface control additive

## KEPERSURF® -153

## Acrylate levelling agent with defoaming function

**Product type**

Acrylate levelling agent with defoaming function..

**Product usage**

In the solvent-based systems, reduce the surface tension slightly,both levelling and defoaming function.,does not affect the adhesion

**Physical data**

1. Effective ingredient: acrylate co-polymer
- 2.Appearance: colorless-light yellow transparent liquid
3. Content: 50±2%
- 4.Specific gravity: about 0.93(25°C)
- 5.Solvent: Xylene

**Product features**

- 1.While ensuring sufficient leveling capacity, it has the strongest defoaming power in the series products .
2. Widely used in steel coil coatings and general industrial coatings.
3. Moderate compatibility, will not cause poor recoating. Good anti-shrinkage hole ability.

**Suggested dosage**

According to the supply type,  
For the total amount of formula: 0.1-1%  
The best dosage needs to be obtained through testing

**Add methods and precautions**

Can be added at any stage of coating manufacturing, but ensure that it is evenly dispersed in the system .

**Scope of application**

Both levelling and defoaming functions in solvent-based systems.widely used in steel coil and industrial coatings.

**Safety instructions**

Refer to the MSDS

**Packing specifications**

- 1、 25KG,180 KG iron bucket
- 2、 Sample:60ml glass bottle

## KEPERSURF®-153 Surface control additive

---

### Transportation and storage

- 1、Containers should be sealed during transport and storage, and no freezing and ambient temperature lower than 40°C.
- 2、The shelf life is 2 years, starting from the date of production.
