

KEPERSURF®-156 Surface control additive**KEPERSURF® -156****Acrylate levelling agent with defoaming function****Product type**

Acrylate levelling agent with defoaming function..

Product usage

Excellent performance in coil steel coatings and PCB inks, with debubbling and anti-floating color function.

Physical data

1. Effective ingredient: acrylate co-polymer
2. Appearance: colorless-light yellow transparent liquid
3. Content: 50±2%
4. Specific gravity: about 0.94(25°C)
5. Solvent: alkylbenzene

Product features

1. levelling, defoaming, compatibility and other properties are excellent balanced, effectively promote film levelling.
2. Effectively prevent the film producing shrinkage holes, fish eyes, pinholes and other defects.
3. Has certain defoaming and anti-floating color functions, widely used in coil steel coatings and PCB inks.
4. Prevent wire drawing and curtain breaking during the construction of spray coating and roll coating.
5. Excellent recoating property, can be used in baking paints.

Suggested dosage

According to the supply type,
For the total amount of formula: 0.1-1%
The best dosage needs to be obtained through testing

Add methods and precautions

Can be added at any stage of coating manufacturing, but ensure that it is evenly dispersed in the system

Scope of application

Widely used in coil steel coatings and PCB inks.

Safety instructions

Refer to the MSDS

KEPERSURF®-156 Surface control additive

Packing specifications

- 1、 25KG,180 KG iron bucket
- 2、 Sample:60ml glass bottle

Transportation and Storage

- 1、 Containers should be sealed during transport and storage, and no freezing and ambient temperature lower than 40°C .
- 2、 The shelf life is 2 years, starting from the date of production.
