

KEPERSURF®-1577E Surface control additive

KEPERSURF® -1577E

Acrylate levelling agent for solvent and solvent-free system

Product type

Epoxy-modified acrylate co-polymer levelling agent

Product usage

Suitable for use in solvent, UV and solvent-free systems.

physical data

1. Effective ingredient: epoxy-modified acrylate co-polymer
2. Appearance: colorless-light yellow transparent liquid
3. Content: 100%
4. Specific gravity: about 1.04(25°C)

Product features

1. Excellent compatibility, lowest fogging risk of paint film, significantly promote levelling, suitable for use in UV and solvent-free systems.
2. Effectively eliminate the drawbacks such as orange grain and pinhole of the paint film.
3. Excellent thermal stability, good recoating property, can be used in baking paints.
4. Widely used in industrial coatings, automotive coatings, coil coatings and radiation curable coatings.

Suggested dosage

According to the supply type,
For the total amount of formula: 0.1-1%
The best dosage needs to be obtained through testing

Add methods and precautions

Can be added at any stage of coating manufacturing, but ensure that it is evenly dispersed in the system

Scope of application

Suitable for solvent-based, UV and solvent-free systems coatings and inks

Safety instructions

Refer to the MSDS

Packing specifications

- 1、25KG,200 KG iron bucket
- 2、Sample:60ml glass bottle

KEPERSURF®-1577E Surface control additive

Transportation and storage

- 1、Containers should be sealed during transport and storage, and no freezing and ambient temperature lower than 40°C .
- 2、The shelf life is 2 years, starting from the date of production..
