

## KEPERSURF®-175 Surface control additive

## KEPERSURF® -175

## Silicon levelling agent that strongly reduce surface tension

## Product type

Polyether-modified polysiloxane levelling agent

## Product usage

Can be used in water-based, solvent-based and UV systems, with excellent smoothness and compatibility

## Physical data

1. Effective ingredient: polyether-modified polysiloxane
2. Appearance: colorless-pale yellow clear liquid
3. Content: 100%
4. Specific gravity: about 1.02(25°C)

## Product features

1. Strongly reduces the surface tension of the system, can be used in water-based, solvent-based and UV systems.
2. Small side effects and high safety under large dosage.
3. With excellent slippery feeling and compatibility. Excellent wettability, anti-shrinkage porosity, anti-floating color ability.
4. Good transparency in high gloss system, excellent matte powder orientation in matte paint. Good recoating performance.

## Suggested dosage

According to the supply type,  
For the total amount of formula: 0.1-0.5%  
The best dosage needs to be obtained through testing

## Add methods and precautions

- 1、 Can be diluted with common solvent or water
- 2、 Added slowly under medium or low shear force to ensure that it is evenly dispersed in the system

## Scope of application

Suitable for water-based, solvent-based, UV coatings and inks

## Safety instructions

Refer to the MSDS

## KEPERSURF®-175 Surface control additive

---

### Packing specifications

- 1、 25KG,200 KG ,iron bucket
- 2、 Sample:60ml glass bottle

### Transportation and storage

- 1、 Containers should be sealed during transport and storage, and no freezing and ambient temperature lower than 40°C .
- 2、 The shelf life is 2 years, starting from the date of production.
