

## KEPERSURF®-195 Surface control additive

## KEPERSURF® -195

## Silicon surface additive that strongly reduces surface tension

**Product type**

Polyether-modified polysiloxane levelling agent

**Product usage**

The surface tension is reduced intensively, leveling directional speed and slip-feeling is greatly improved in solvent and UV systems.

**Physical data**

1. Effective ingredient: polyether-modified polysiloxane
2. Appearance: colorless-pale yellow-pale red clear liquid
3. Content: 100%
4. Specific gravity: about 1.00(25°C)

**Product features**

1. Strongly reduces the surface tension of the system, can be used in solvent-based and UV systems.
2. Excellent slippery feeling, excellent scratch resistance effect.
3. Excellent wettability, excellent anti-shrinkage porosity and anti-floating color ability, It is not stable foam in the paint and has a certain antifoaming effect.
4. Good recoating property.

**Suggested dosage**

According to the supply type,  
For the total amount of formula: 0.1-0.5%  
The best dosage needs to be obtained through testing

**Add methods and precautions**

1. Can be diluted and added with common solvent or water
2. It can be added at any stage of coating manufacturing, but ensure that it is evenly dispersed in the system

**Scope of application**

Suitable for solvent-based, UV coatings and inks

**Safety instructions**

Refer to the MSDS

**Packing specifications**

1. 25KG, 200 KG iron bucket
2. Sample: 60ml glass bottle

## KEPERSURF®-195 Surface control additive

---

### Transportation and storage

- 1、Containers should be sealed during transport and storage, and no freezing and ambient temperature lower than 40°C .
- 2、The shelf life is 2 years, starting from the date of production..
