

## KEPERSURF®-382 Surface control additive

## KEPERSURF® -382

## Acrylic levelling agent for water-based systems

**Product type**

Ionic-type acrylate copolymers levelling agent

**Product usage**

Reduce the surface tension in the water-based systems, Promote paint film flow, levelling.

**Physical data**

1. Effective ingredient: ionic-type acrylate copolymers
2. Appearance: colorless-light yellow transparent liquid
3. Content: 50±2%
4. Specific gravity: about 1.03(25°C)
5. Solvent: DPM

**Product features**

1. General acrylate levelling agent, suitable for water-based industrial coatings.
2. Excellent promote levelling ability, can effectively solve the defects such as shrinkage hole and orange peel caused by poor substrate wetting.
3. Excellent thermal stability, especially suitable for high temperature baking paint systems. excellent recoating performance.

**Suggested dosage**

According to the supply type,  
For the total amount of formula: 0.1-1%  
The best dosage needs to be obtained through testing.

**Add methods and precautions**

Can be diluted with water or common solvents. it can be added at any stage of coating manufacturing, but ensure that evenly dispersed in the system.

**Scope of application**

Suitable for water-based coatings such as wood coatings, industrial coatings, automotive coatings, especially suitable for high temperature baking paint systems.

**Safety instructions**

Refer to the MSDS

## KEPERSURF®-382 Surface control additive

---

### Packing specifications

- 1、 25KG,180 KG plastic bucket
- 2、 Sample:60ml glass bottle

### Transportation and storage

- 1、 Containers should be sealed during transport and storage, and no freezing and ambient temperature lower than 40°C .
- 2、 The shelf life is 2 years, starting from the date of production.
