The communication range quoted is calculated under optimum conditions, with an unobstructed line of sight. Actual range will vary depending on terrain and conditions, and is often less than maximum possible. Your actual range will be limited by several factors including, but not limited to, terrain, weather conditions, electromagnetic interference, and obstructions.

**This radio meets IP67 standards. It will withstand submersion of up to 1m for 30 minutes. Radio floats with included NiMH battery. It may not float with some AA batteries. Use of headset should be in dry environments only.
