

DA-075-01/LED Pixel module

Size:

Unit (mm)

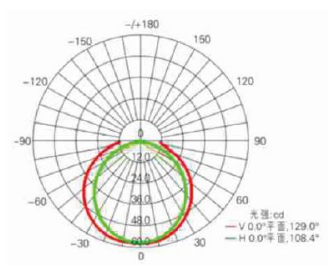

DA-075-01/LED Pixel module

Features:

- 1. The minimalist design meets the modern industrial aesthetic standard
- 2. Structure waterproof technology to ensure durability
- 3. Original imported Cree LED and 65536 level gray control
- 4. High light transmittance imported PC cover with good anti-UV
- 5. The pixel module specification and installation method can be customized according to the specific need

Parameter:

Lamp Parameter		LED parameter	
Beam Angle	120°	LED chip	Cree CLX6E/2835
Cover and case material/color	Imported PC/Black	CCT	Single color/RGB/RGBW
IP rate	IP66 structure waterproof	LED life time	50000 hours
Power	3W-6W	Other Parameter	
Input voltage	24V DC	Cable	5pins rubber cable (power cable 1mm², signal cable 0.3mm²)
Waterproof connector	Φ16mm Aluminium alloy, Φ1.5mmGold Plated solid pin		
Pixel	ON-OFF or 1 pixel	Cable length	Customizing
Irradiation angle	Horizontal	Installation clip	aluminum
Cable output	From 2 ends	Light distribution	
Series connection	20pcs		
Control system	DMX512		
Environment Temperature	-30°C~+35°C		
Net weight	150g		
Certificated	GB7000.1-2015; GB7000.201-2008
