Shenzhen Jinfengsheng Electronics Co., Ltd.

Professional wire harness manufacturer

Shenzhen Jinfengsheng Electronics Co., Ltd. was established in 2007 and is a comprehensive wire harness manufacturer that integrates research, development, production, sales, and service. The company boasts a robust sales team, production team, and service team, along with a large number of high-efficiency, high-output new-generation automated production equipment. We are dedicated to providing customers with high-quality wire harnesses and comprehensive wire harness solutions.

Development History:

Since its establishment, Jinfengsheng Electronics has gathered a group of industry elites with modern enterprise management experience. Over the past 18 years of rapid development, the company now has more than 500 employees. The company's headquarters is located in Xixiang, Bao'an District, Shenzhen, with an office and factory area of 2,200 square meters, primarily focusing on sales services and automated production. Additionally, the company has a large-scale production base in Xinyi City, Maoming, covering over 15,000 square meters, specializing in the production of wire harnesses for small household appliances, battery power supplies, and other consumer electronics. Another large factory is situated in Zhongshan City, with an area of 8,000 square meters, dedicated to the production of motorcycle and automotive wire harnesses.

Core Advantages:

Advanced Equipment: Jinfengsheng Electronics is equipped with state-of-the-art wire extrusion machines, automatic terminal stripping machines, automatic computerized wire cutting machines, automatic terminal crimping machines, vertical injection molding machines, and other complete sets of wire harness end-processing equipment. This ensures efficient production and high-quality products.

Comprehensive Certifications: The company has obtained multiple certifications, including ISO9001:2015 Quality Management System Certification, IATF16949:2016 Automotive Industry Quality Management System Certification, ISO14001:2015 Environmental Management System Certification, CCC Compulsory Product Certification, and others. These certifications ensure product quality and environmental compliance.

Rigorous Testing: Jinfengsheng Electronics is equipped with advanced testing equipment such as vision and pressure testing machines, metal salt spray testing machines, terminal tensile testers, connector continuity testers, low-resistance test analyzers for wire conductors, and UL system testing instruments. This ensures that every batch of products meets the high standards required by customers.

Products and Services:

Consumer Electronics Wire Harnesses: Specializing in the production of wire harnesses for small household appliances, battery power supplies, and other consumer electronics, offering customized solutions.

Motorcycle Wire Harnesses: Providing high-performance and reliable wire harnesses for motorcycle manufacturers, meeting the needs of various models.

Automotive Wire Harnesses: Focusing on the design, production, and testing of automotive wire harnesses, ensuring products meet the stringent standards of the automotive industry.

Automated Production: By introducing advanced automated production equipment, we improve production efficiency and product quality while shortening delivery times.

Corporate Philosophy:

Jinfengsheng Electronics adheres to the philosophy of "Innovation-Driven, Quality First," committed to providing customers with high-quality, high-performance wire harness products and excellent services. The company will continue to increase R&D investment, enhance technical capabilities, and promote the continuous development of the industry, aiming to become a global leader in wire harness manufacturing.

CORE VALUES OF THE ENTERPRISE

Team spirit:

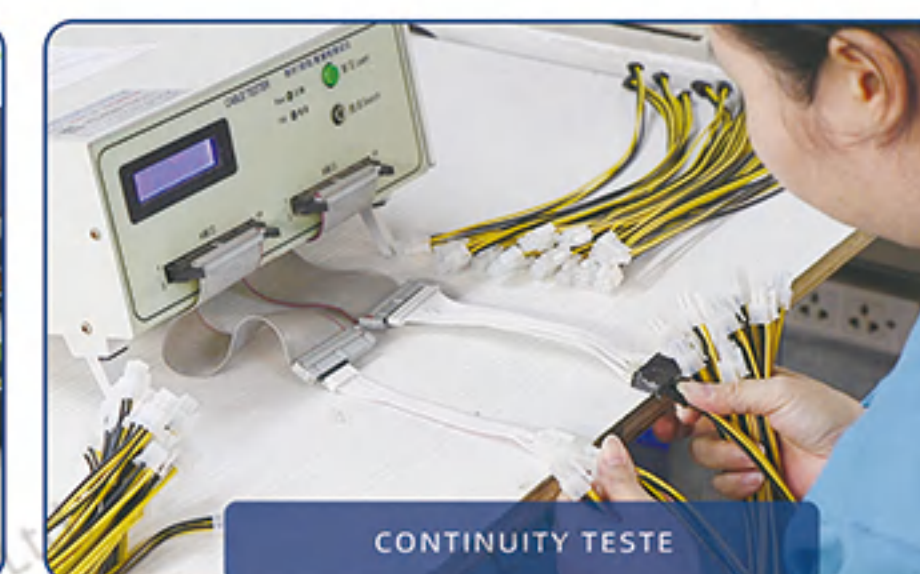

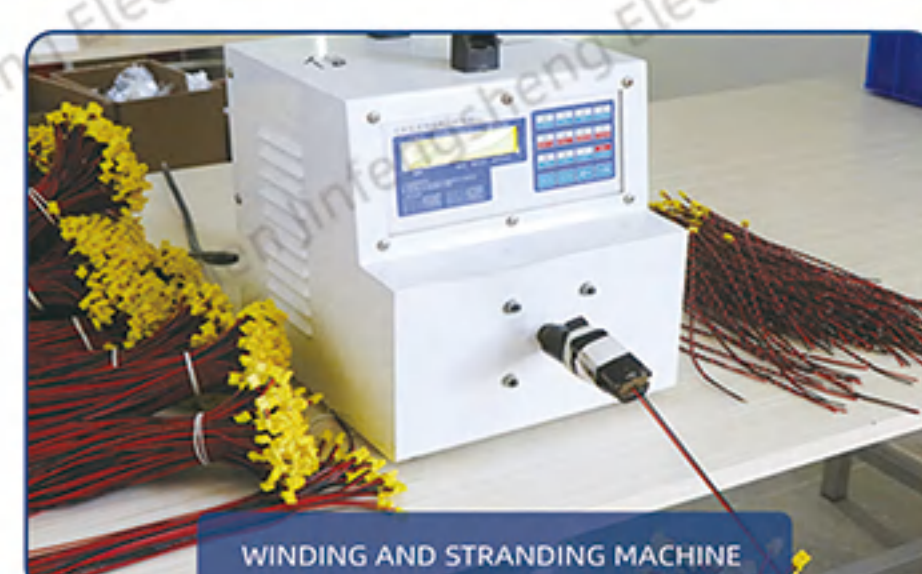

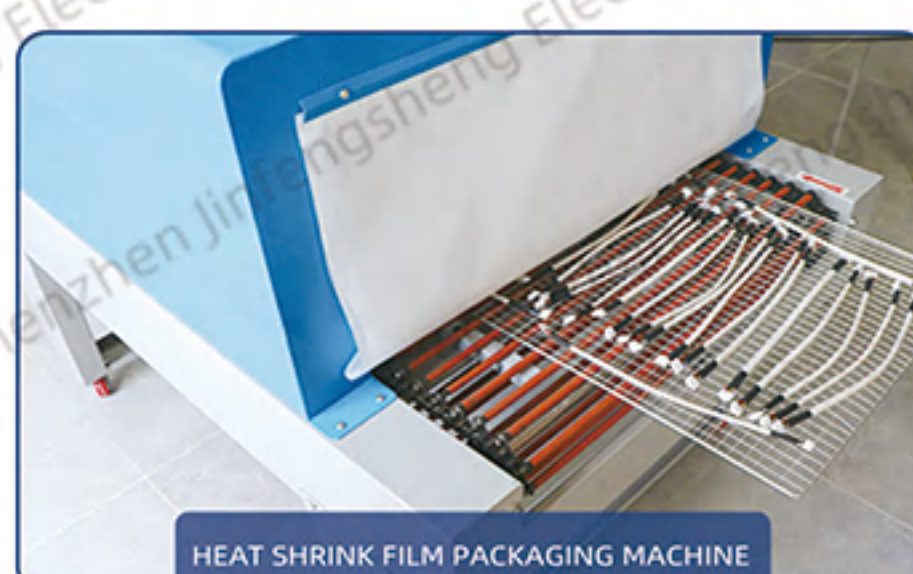

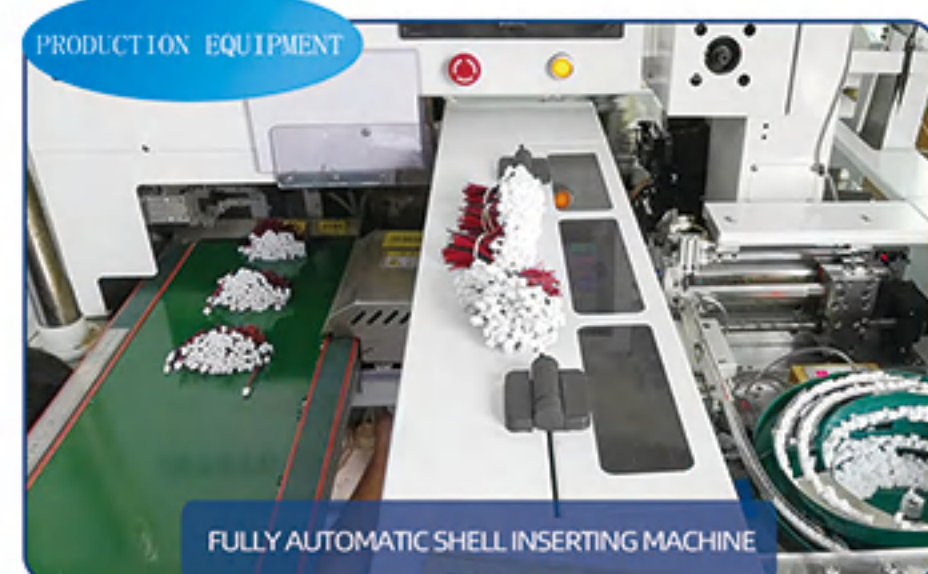

Building a first-class wire harness enterprise and serving world-class customers.

Proactive and enterprising:

Creating value for customers and platforms for employees.

Win win cooperation:

Full participation, high quality and efficiency, continuous improvement, and customer satisfaction.

WIRE AND CABLE PRODUCTION DEPARTMENT

The company is headquartered in Shenzhen. It was founded in 2007 and is located in Sanwei, Xixiang, Bao'an District, Shenzhen, Guangdong Province, China. It specializes in the customized processing of various wire harnesses, such as automotive wire harnesses, motorcycle wire harnesses, high-voltage wire harnesses, terminal wires, electronic wires, flat cables and sheath wires. It supports customization based on the provided drawings or samples, provides sampling services and can offer comprehensive wire harness solutions.

MAOMING DINGBAO FACTORY

Main Business:

Xinyi Liuyun Factory mainly specializes in the automated manufacturing of terminal wires, injection-molded wire harnesses, welded wire harnesses, electronic wires, sheathed wires, and flat cables. We concentrate on offering efficient and top-notch wire harness solutions to fulfill the diverse requirements of various industries.

Main Production Equipment:

Fully Automatic Shell Insertion Machines, Fully Automatic Terminal Crimping Machines, Fully Automatic Wire Cutting and Tinning Machines, Fully Automatic Sheathed Wire Stripping Machines, and Injection Molding Machines.

Main Products:

Terminal Wires, Electronic Wires, Sheathed Wires, DC Wires, Data Cables, Charging Cables, Injection-Molded Connectors, Cable Clamps and Tail Clips, Complex Combination Harnesses.

Production Equipment

Jinfengsheng Zhongshan Factory focuses on the production and sales of automotive wire harnesses and motorcycle wire harnesses. With advanced production equipment and technology, we are dedicated to providing customers with high-quality and highly reliable wire harness solutions that are widely applied in various automobiles and motorcycles.

Automotive wire harness products: Electric pedal wire harnesses, tailgate wire harnesses, rearview mirror wire harnesses, one-button start wire harnesses, T-BOX wire harnesses, etc., which meet the requirements of different vehicle models.

Motorcycle wire harness products: Whole vehicle wire harnesses, including wire harnesses for systems such as engines, lights, and instrument panels. Customized wire harnesses: Provide personalized motorcycle wire harness design and manufacturing services.

Production process optimization: Continuously improve product quality and production efficiency and constantly optimize the production process.

Customer cooperation: We have established long-term and stable cooperative relationships with many well-known automobile and motorcycle manufacturers. Through close cooperation, we can understand market demands in a timely manner, quickly respond to customer feedback, and jointly promote product innovation and technological progress.
