Hotel & Restaurant manufacturer
& design & leader

SLOGAN

Slogan Make quality profitable &
affordable win-win &
Long term cooperation

Jiangmen YD hardware Co., Ltd is one of the leading stainless steel and plastic hotel & restaurant kitchen manufacturer in China with NSF & BSIC & ISO9000 factory audit. We introduce advanced equipment for high production efficiency, such as world class numerical control punching, deep drawing, bending, polishing machine, etc. We have our own environmental electrolyze washing and enamel coating product line, which can make cold stainless steel become more colorful & elegant. Equipped with a skilled engineer team, professional sales team and strict QC quality control system. Not matter the products' quality and cost, but also the after-sales service make you satisfied & competitive all the times.

We are not only a traditional OEM manufacturer on stainless steel gn pan, chafing dish, beverage dispenser, service trolley, metal fabrication and plastic kitchenware, but also an innovative & revolutionary exporter on developing various commercial kitchen supplies with our long-term partner. We achieve many successful cases in the past 10+years. Our core value is to make our partners become giants in their local market.

Looking forward to the future, we will move to a new 100000 SQM industrial zone to combine all production line in one place. We sincerely wish to extend more different projects with our oversea partners for mutual win-win relationship.

STAINLESS STEEL GN PAN

height (mm)

DIMENSIONS OF GN CONTAINERS:

 GN 2/1 650x530 mm	 GN 1/1 530x325 mm	 GN 2/3 354x325 mm	 GN 2/4 530x162 mm	 GN 1/2 325x265 mm
 GN 1/3 325x176 mm	 GN 1/4 265x162 mm	 GN 1/6 176x162 mm	 GN 1/9 176x108 mm	

GASTRONORM CONTAINERS

- Made of high grade stainless steel 18/10/ S201.
- Very solid design.
- Smooth edges, easy to clean.
- Can be used in convection ovens, refrigerators, bain-marie systems and chafing dishes.
- 0.5-0.8MM for your choice

Very strong and durable

For use at temperatures
-40°C / 300°C

Excellent resistance
to corrosion

Reduced inner radius increases
maximum capacity

COOKWARE

Premiun line/standard line

Type and Features of Cookware

STOCK POT

FEATURES

- Thick base for good slow simmer
- Ideal for stock, soups, pastas, bulk vegetables and sea food
- Smaller diameter and taller height of pot preserves liquid longer and forces the liquid to bubble up through the ingredients, maximizing flavour transfer

CASSEROLE POT

FEATURES

- Wide bottom area for maximum heat conduction
- Ideal for slow cooking stews, sauces, soups, casseroles and roasts while reducing the content
- Two loop handles for easier pouring and movement.

LOW CASSEROLE POT

FEATURES

- Wide heating surface allows the cooking of meats and vegetables in limited amounts of liquid
- Ideal for long slow cooking which allows the liquid to add juices flavour
- Also used as a hot bath in conjunction with tapered sauce pans for melting butters, heating sauces or for blanching vegetables

SAUCE PAN

FEATURES

- Hybrid sauce pan and fry pan
- saute, brown, poach, create a stir fry and build a sauce
- Curved sides allow for thorough and efficient whisking of ingredients

FRYING PAN

FEATURES

- Curved side walls for easy stirring food out of the pan
- Ideal for frying, scrambling, sauteing or searing
- sloped sides prevent steam from forming in the pan

SAUTE PAN

FEATURES

- Wide bottom area for maximum heat conduction
- Ideal for sauteing, searing, deglazing, poaching and stir frying
- straight high sides help contain food and expose all sides to heat

including induction

Premium Line

- Sanded pan with high gloss polished heavy bumper
- Solid handles with multi-point fixing to the pot surface which don't get hot.
- Super Acid-resistant & Anti Rust.
- Sandwich type bottom (stainless steel/aluminum/stainless steel) combines the heat distribution of aluminium with the durability and magnetic properties of stainless steel to allow induction cooking.
- The bottom is formed by special impact bonding, causing the whole surface of the component layers to weld seamlessly - this guarantees corrosion resistance and optimal heat conduction.

Sandwich bottom (SS+Alu.+SS)
Better heat distribution
Induction ready
More Durable

One Sheet Structure
More Durable, No leaking
Better rust resist ant & acid-resistant

Commercial Electric Griddle Enamelled Plate

- Temperature range of 50 -300 °C (122 °F -572 °F) adjustable
- Stainless steel body and enamel plate, enamel plate thickness: 6mm
- The enamel gives to the steel a better quality of finishing. It is a mass enamel with good resistance to friction. This enamelled coating facilitates the use and cleaning of the device.
- Perfectly smooth appearance, the enamelled steel plate allows very good contact cooking for a direct heat transfer to the food to be cooked. This fry top is widely used in traditional restaurants and food-trucks.
- Non-Skid rubber feet prevent slipping
- Products tested to meet EU standards (CE certification)

Electric Fryer Series

- Selected high-quality stainless steel material, high strength, good toughness, simple design, pressing beautiful, smooth:
- High-efficiency heating tube, heating fast, fried food crisper;
- The safety drain valve design, the separation frying oil is safer and more convenient;
- The overtemperature protection device, guarantees the food normal frying temperature; does not dare not to burn, simultaneously guarantees the equipment safety and the personnel safety.

Oil Tank

- ODM/OEM service: Welcome to offer any new products' drawing, we can produce the same mould tool & make massive production with our professional deep-drawing technology.

Fry Chip Warmer Station

- Our Unique Patent
- Flat package to save shipping cost & online sales
- Infinite Control Infrared heated tubes, high heat efficiency
- Heating cover can work with different part: GN pan, french fries station & warming plate
- Wide temperature range of 30 to 85°C
- Efficient and quick heating with a total power of 500W to keep chips hot and crisp
- Low-maintenance, removable food pan
- Precise thermostat for a constant temperature
- Robust and easy to clean stainless steel casing
- With infinity control for the power and heating

MODEL EFC-01A

MODEL EFC-03B

MODEL EFC-02A

Fry Chip Warmer Station

- Durable Material: It is made of high quality stainless steel material, strong and durable.
- Double Heating: Its bottom food heat plate and top food heat lamp can provide double heating
- Adjustable Temperature: Its bottom temperature is adjustable, and the adjustment range is 30-85°C/86-185°F.
- Large Platform: Its food heat plate measures, which is large enough to hold your dishes.

Table Top Hot Dog Warmer

- Temperature controller in the range of 30 to 85 degree
- With handles for easy transport.
- Sausage container capacity: 8L
- Lid with insulated, cool-touch handle.
- Option for drain tap

Item No.	Voltage	Power	Diemensions(mm)
XD-ESW-8	220V	1200W	295*345*240mm

- The stainless steel exterior frame ensures long-lasting durability.
- The grooved cast iron plates can cook evenly, non-stick coating is easy to clean after using.
- 50-300℃ (122℉ -572℉) adjustable to meet different food request.
- Grease tray can be removed and emptied quickly
- Anti-scalding handle, safe to use
- Non-Skid rubber feet prevent slipping

PLASTIC KITCHENWARE

AMBER HIGH HEAT PLASTIC FOOD PAN

NEW!

13AHHP1

13AHHP2

Food High Heat Pan with Handle is designed with convenience, safety, and efficiency in mind. Ideal for breakfast menus and quick-serve restaurants, this pan is engineered with a reinforced, textured handle and finger grip design for safety. Performing from -40°F to 375°F (-40°C to 190°C), the heat tolerance safeguards food temperatures and flavourful cooking. This solution also offers a flat base to maximize contact with the heating element. For additional convenience, the drain holes in the handle ensure hygienic, quick-dry washing. The PESU High Heat Pan with Handle guarantees quality in high heat durability and performance.

Code	Name	Product Size	Material	Capacity
13AHHP1	1/3 Amber High Heat Plastic Food Pan with 1 Handle	42x17.8x6.4cm	PPSU	2.4Qt
13AHHP2	1/3 Amber High Heat Plastic Food Pan with 2 Handles	50.8x17.8x6.1cm	PPSU	2.4Qt

PC GN PAN

- Durable, no deformation, no hollow drums, no cracks. Smooth interior makes cleaning easy.
- Withstands temperatures from -40°C to 99°C.
- Safe and healthy environmentally friendly material food grade PC.
- Thicker and more resistant, fresher and more capable, with a laminated, non-slip design.

Clear and smooth surface

Ensuring the content of the whole/view
Easy to clean

Thickened frosted bottom

The textured bottom prevents scratches and improves durability.

Capacity scale

The capacity indication on the side of the plate is listed in litre.
Allows capacity measurement and capacity control.

STANDARD ALUMINUM SHELVEING

- In the large-scale catering industry which requires frequent delivery,loading and unloading of products during operation, the shlef mu have suficient stability,strength, and meet hygienic storage standard. Aluminum shelving can accurately achieve the design purpose, and it can bear the heavy products which is hardest to move in any complex environment and it is easy to clean and adjust.
- This is a modular system whose frame can be combined fexibly to fix any area and size. The key parts incude columns, column connectors, cross beam andpartitions, are available in various sizes. They can be easily configured to build cutomized racks so as to acchieve max storage space.
