Important Note

1. Do not look directly at the IR infrared fill light at close range, otherwise it may cause harm to the eyes!
2. The infrared light of this product will accumulate a large amount of energy when turned on. It is strictly prohibited to aim at flammable objects at close range, otherwise it may cause a fire. When not in use, please turn off the IR infrared fill light!
3. Please use a lithium-ion rechargeable battery with a rated voltage of 3.7V!
4. Do not open the casing without authorization. If a malfunction occurs, please contact the manufacturer in a timely manner. Otherwise, it will be considered as a waiver of warranty service.
