WELCOME TO QIONGKAI

## COMPANY PROFILE

Shanghai Qiongkai Industry Co., Ltd. has been making remarkable strides in the prefabricated building materials sector since its inception in 2005.

Our headquarters, strategically positioned in the vibrant Songjiang Port Science and Technology City of Shanghai, serves as the nerve center of our operations, facilitating seamless coordination and innovation. We pride ourselves on being a comprehensive metal building material solution provider, with a seamless integration of production, research and development, design, sales, and installation processes. Our product portfolio is not only extensive but also highly sophisticated.

By combining efficient and stable production facilities with our expert crews, we are able to satisfy large scale standardized production, also adapting unique requirements customized orders. Our production teams, consisting of highly skilled technicians and engineers, work in harmony with these advanced machines, ensuring that every product that leaves our facilities meets the most stringent quality standards.

With a spirit of innovation and a commitment to quality, we will strive to contribute even more significantly to the development and evolution of the building materials sector, working hand in hand with our customers and partners to create a more sustainable and advanced built environment.
