

PRODUCT DATA SHEET

XP-4 Anti-salt Defoamer for Oil Well Cementing**Product Description**

XP-4 achieves the purpose of defoaming by reducing the surface tension of the liquid, and is mainly suitable for defoaming of brine cement slurry systems.

Application

- Non-toxic, odorless, non-corrosive and environmentally friendly.
- Normal dosage: 0.1%~0.4% (BWOC).
- It has various functions such as inhibiting foam, de-foaming, gas-block, de-foaming rapidly.
- Resistance to acid and alkali, and also high temperature resistance.
- Suitable for brine cement slurry system, and has good compatibility with other additives.
- No any negative effect on cementing slurry.

Technical Specification

Appearance	Homogeneous liquid
Deforming ratio, %	≥90.0

Packing, Storage

- Stored in plastic barrels, 20kgs/barrel, or packed according to customer requirement.
- To be kept away from fire, damage and leakage in store and transportation.
- Storage life time is one year.
