

PRODUCT DATA SHEET

WH-1 WBM Detergent**Product Description**

WH-1 is formulated with a variety of high-efficiency surfactants and other additives. It has a strong penetrating effect, can quickly penetrate into the mud cake formed on the well wall during the drilling process, and disperse and erode the mud cake, thereby improving the cementing ability of the cement slurry and the contact surface.

Characteristics

- Non-toxic, odorless, non-corrosive.
- It has good compatibility with drilling mud.

Technical Specification

Items	Specification
Appearance	Homogeneous liquid
Density(20±2℃), g/cm ³	1.0±0.05
Flushing efficiency(38.0℃), %	≥90.0

WH-1 is diluted to 2~50% water solution. The flushing fluid dosage of each well is designed according to the annular height of 300 meters, and can be formulated according to the actual well cementing design.

Packing, Storage

- Stored in plastic barrels, 25kg/barrel, or packed according to the request of clients.
- Kept away from fire, damage and leakage in store and transportation.
- Storage life time is one year.
