

KTB Standard 2U 19-inch Rackmount Industrial PC

IPC-2040A

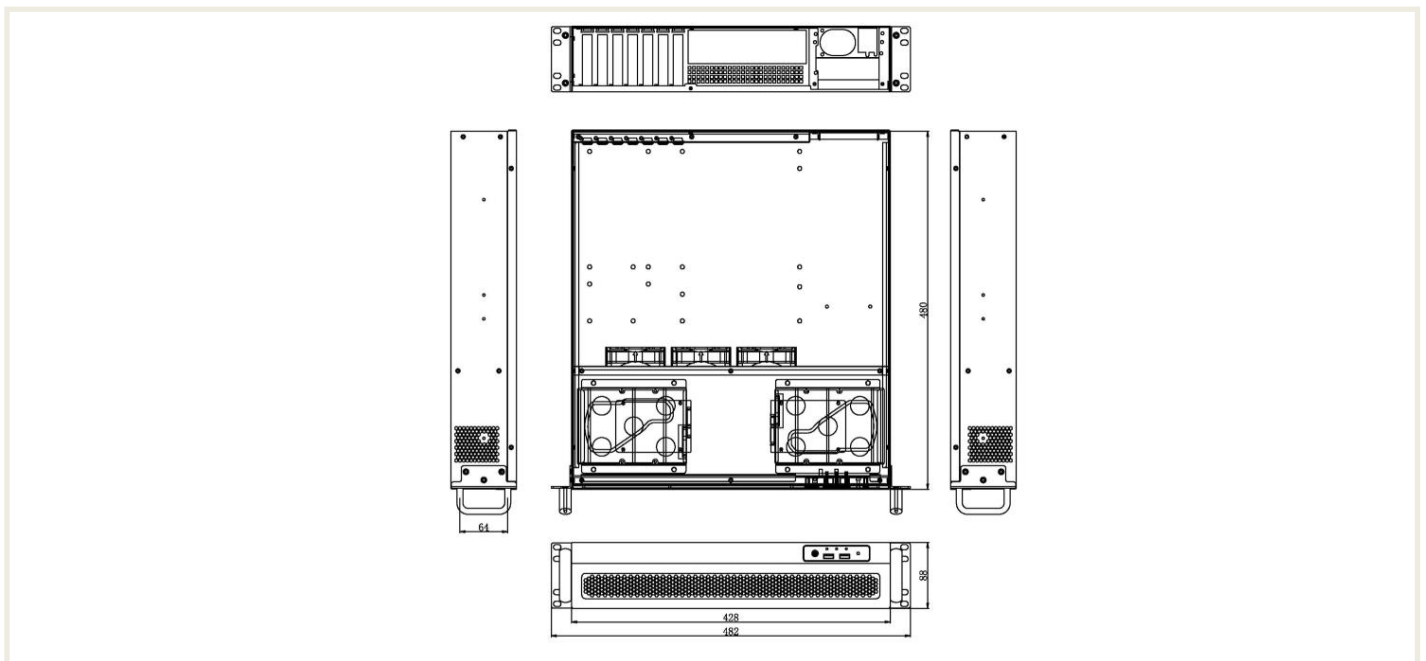

Product Features:

- Supports motherboards of 12"×9.6" or smaller sizes
- Supports 4×3.5" hard drive bays plus 2×2.5" SSD bays
- Supports 3×8cm fan positions, equipped with 3×8025B fans
- Supports 7 half-height PCI/PCIe expansion slots (vertical insertion)
- Compatible with FLEX small 1U power supplies, standard 1U/2U single power supplies, and redundant power supplies

Product Description:

The IPC-2040A is a standard 19-inch rackmount 2U industrial computer, measuring 480mm (depth) × 428mm (width) × 88mm (height). It features eco-friendly fingerprint-resistant SGCC material paired with an aluminum front panel. Equipped with 4×3.5" hard drive bays plus 2×2.5" SSD bays, and 3×8cm fan positions, it supports motherboards of 12"×9.6" or smaller sizes, and includes 7 half-height PCI/PCIe expansion slots. Two USB ports are located on the front, and it is compatible with multiple power supply options. It is suitable for fields such as cloud storage and security monitoring.

Dimension:

2U 19" Rackmount Industrial Computer

Supporting Motherboards of Standard 12"×9.6" or Smaller Sizes

Specification:

Model	IPC-2040A
Dimensions	480mm (depth) × 428mm (width) × 88mm (height), standard 19" rackmount 2U industrial pc
Material	Eco-friendly, fingerprint-resistant 1.2/1.0mm SGCC; aluminum front panel
HDD Bays	4×3.5" hard drive bays + 2×2.5" SSD bays
Fan Positions	3×8cm fan positions, equipped with 3×8025B fans
Compatible Motherboards	Standard 12"×9.6" or smaller-sized motherboards
Expansion Slots	7 half-height PCI/PCIe expansion slots (vertical insertion)
System Controls	POWER LED×1, HDD LED×1, NIC LED×2, POWER SW×1
USB Ports	2 front USB ports
Power Supply	Compatible with FLEX small 1U power supply, standard 1U/2U single power supply, redundant power supply
Application Fields	Cloud storage, cloud computing, big data, security monitoring, etc.
