

# KTB Standard 4U 19-inch Rackmount Industrial PC

## IPC-4010A

### Product Features:

- Supports motherboards of 12"×9.6" and smaller sizes
- Supports 1× 3.5" HDD (optical drive bay compatible with 1× 2.5" HDD/SSD), plus 3× 5.25" optical drive bays
- Standard 1× 12025B fan bay
- Supports 7× full-height PCI/PCIE expansion slots
- ATX standard power supply / redundant power supply

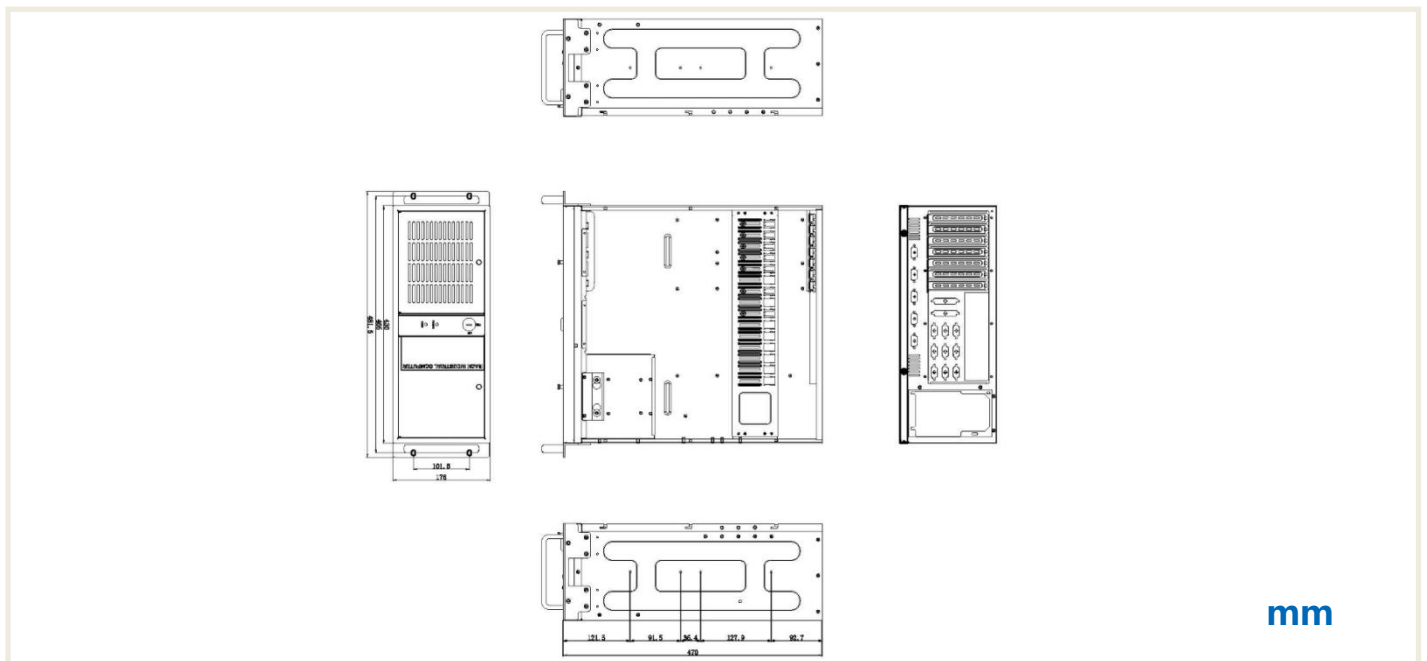

### Product Description:

The KTB IPC-4010A is a 4U rackmount industrial PC (471.4mm×430mm×176mm) made of eco-friendly, fingerprint-resistant SGCC—sturdy and durable.

It supports 12"×9.6" (or smaller) motherboards, with 1×3.5" HDD bay (optical drive bay fits 2.5" storage), 3×optical drive bays, ATX/redundant power, and a standard 12025B fan for cooling. It also has 7 full-height PCI/PCIE slots, 2 front USB 2.0 ports, and power/HDD indicators.

Ideal for industrial control, intelligent transport, and mechanical automation—great for high-performance computing in tight spaces.

# 4U Rackmount Industrial PC

## Supporting Motherboards of 12"×9.6" and Smaller Sizes

### Specification:

Model	IPC-4010A
Dimensions	471.4mm (D) × 430mm (W) × 176mm (H), standard rackmount industrial chassis
Material	Environmentally friendly, fingerprint-resistant 1.2/1.0/0.5mm SGCC
Surface Treatment	Exterior surface sprayed; internal components unsprayed
HDD Bay	1× 3.5" HDD (optical drive bay compatible with 1× 2.5" HDD/SSD)
CD-ROM Bay	3× 5.25" optical drive bays
Power Supply	ATX standard power supply / redundant power supply
Fan Bay	Standard 1× 12025B fan bay
Expansion Slots	7× full-height PCI/PCIE expansion slots
USB Ports	Supports 2× front USB 2.0 ports
System Controls	Power LED1, HDD LED1, Power SW*1
Compatible Motherboards	Supports motherboards of 12"×9.6" and smaller sizes
Application Fields	Widely used in industrial control, intelligent transportation, mechanical automation, IoT, security monitoring, etc.
