Parts list

Step 1: Put the ⑦ spring washer and screw pad onto the ⑥ screws in sequence and install the ② bed legs onto the ① bed frame (pay attention to the direction of the nuts under the bed legs). Do not tighten the screws yet.

Step 2: Use the ⑥ screws to put on the ⑦ spring washer and flat washer in turn, install the ③ storage board, and tighten the storage board screws with the ⑧ wrench.

Step 3: Stand up the bed, insert the short side of the ⑤ branch into the plastic part of the bed frame, and the long side into the hole of the iron part of the bed frame, and then screw the matching screws into the screw holes at the bottom of the branch.

Step 4: Use ⑧ wrench to tighten the screws of all bed legs and put ④ pillow on the bed.
