Product Introduction

Structural & Material Features

Frame: Constructed with a carbon steel and wood combination, ensuring long - lasting stability and strong load - bearing capacity.

Filling: High - quality four - side filling provides plush comfort, conforming to your body's contours for a cozy seating feel.

Upholstery: Adopts artificial leather, which is wear - resistant, easy to clean, and offers a sleek, elegant look.

Functional Details

Left-side foldable cup holder: Features a spring-structured foldable cup holder on the left armrest. It neatly tucks away when not in use, saving space while offering a convenient spot for drinks during relaxation.

Right-side controls & USB port: Built-in buttons adjust the backrest and leg rest for personalized reclining angles. An additional USB charging port provides easy device power-up.

Adjustable & removable headrest: The headrest can be extended or detached, enabling customized neck and head support to enhance overall comfort.
