

Vehicle Magnetic Anti Drone Device

User manual

Thank you for using this 8-band vehicle-mounted anti-drone device.

In order for you to operate the equipment as quickly as possible, we are equipped with a detailed user manual, from which you can obtain the product introduction, use methods, system Settings and safety precautions and other aspects of knowledge.

We are very careful and rigorous in the preparation of this manual, and believe that the information provided in the manual is correct and reliable, but there will inevitably be mistakes and omissions, please kindly bear with us and warmly welcome your correction.

Disclaimer:

Before using this product, please read the relevant operation instructions and this statement carefully to ensure the correct use of the product. Failure to follow or use this product in accordance with the instructions and precautions herein may result in product damage and other risks. Some contents of this document are subject to change as the product hardware is upgraded and are subject to change without prior notice.

By starting to use this product, the user shall be deemed to have approved and accepted all contents of this Statement. This product is strictly forbidden to disassemble.

1.Product characteristics

- (1) The product is small in size and convenient for vehicle installation.
- (2) Magnetic installation (customized according to customer requirements)
- (3) Customized spring FRP antenna, good anti-interference performance.
- (4) Integrated host antenna
- (5) The bottom heat dissipation tooth heat dissipation plus heat dissipation fan.
- (6) One-key switching technology to control power output.
- (7) Power supply AC220V or DC24-28V, can be customized.
- (8) Waterproof class IP65

Package List:

1. Product host *1pcs
2. Power cable *1pcs
3. Antenna *8pcs
4. Remote control *1pcs

Product show:

Jammer body*1

Car cable *1

Remote control *1

Product parameters:

Name	Vehicle magnetic drone jammer	Custom	support
Channel	600 (500-600mhz) 700 (600-700mhz) 800 (700-800mhz) 900 (800-900mhz) 1.0G (900-1000mhz) 2.4G (2400-2500MHz) 5.2G (5150-5300MHz) 5.8G (5700-5950MHz) GAN plus isolator all 50W	Function	forced landing, return to flight, cut off video
Cover radius	500-1500M	Output power	400W
Weight	20KG	Size	52*39*26 cm
Voltage	220V to DC 29.4V	Place of use	Army, National defense, military, armed police, transportation, large venues air defense, etc
Base	Vehicle suction cup mounted	Blocking medium	Electromagnetic wave
Packing method	Foam sponge + cardboard box	Package size	42 * 60 * 30 cm

Frequency band description:

This device is only for FPV UAVs in the corresponding frequency band

4. Application scenario

Forbid "black fly" to be the guardian of low altitude security.

With the rapid increase in the number of civilian drones, the number of various "black flight" incidents has also risen rapidly. The company's products are mainly used in venues, high-speed railway stations, military bases, major government conferences, prison management, petrochemical industry, border defense, breeding bases and cultural and sports activities.

Airport

Rail station

Military base

Major conference

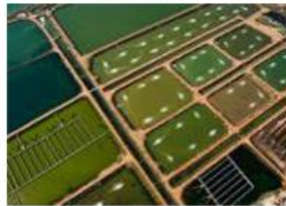

Prison

Petrochemical industry

Frontier defence

Breeding base

Activities

5. Matters needing attention

- (1). The equipment should be installed in a high space without shelter, and avoid high-voltage lines and electromagnetic wave interference as far as possible
- (2). Check the battery level before using the device, and charge it first if it is less than 40%.
- (3). The warranty period is 12 months, which guarantees the operability of the product and promises to carry out warranty maintenance in case of failure during the warranty period, provided that the consumer complies with the conditions of operation, transportation and storage.
- (4). We reserve the right to make changes to the product design in order to improve

its technical characteristics and reliability.

(5). in outdoor use, should pay attention to the waterproof effect, but also to avoid exposure to the sun, when using the direction of the drone, the best effect.

This product is suitable for places where drones are prohibited to fly!
