公司介绍 COMPANY PROFILE

Guangzhou Xiantai Industrial Co., Ltd., founded in 2004, is a leading manufacturer of nail stickers, tattoo stickers, and nail art accessories in China. Located in Guangzhou, China, we operate a 10,167m² facility with over 5,000m² of factory space.

We offer diverse products, such as gel nail strips, nail polish stickers, 3D nail stickers, press-on nails, face gems, temporary tattoos, semi-permanent tattoos, and waterless tattoo stickers, which are widely used in the beauty, toy, gift, promotional, and fashion industries.

Certified with ISO9001, ISO14001, ISO22716, GMPC, FSC, and SEDEX, we meet advanced industry standards in quality control, environmental management, and standardized production. Our products have obtained CPSR, TRA, EN71-1/2/3, EP6.12/6.13, PHTHALATES, Heavy Metal, Microbiological Examination, PAHs, REACH-SVHC, FDA, and other international certifications, ensuring global safety and regulatory requirements.

Committed to long-term partnerships, we provide stable and reliable OEM/ODM customized services. Through high-quality product solutions and an efficient, dependable service system, we help clients achieve continuous value growth.

产品介绍 PRODUCT INSTRUCTION

Environmentally friendly soybean ink instead of ordinary ink + breathable glue + skin-friendly glue, our tattoo stickers are all environmentally friendly export quality, the material meets the environmental protection requirements of various places and complies with CPSR, EN71-1-23, EP6.126.13, PHTHALATES, Heavy Metals, Micro-crobial Contamination, TRA, PAHS, REACH-SVHC and US FDA and other international certifications. We never cut corners, just to provide you with "breathing tattoos" with our heart.

01 Imported ink

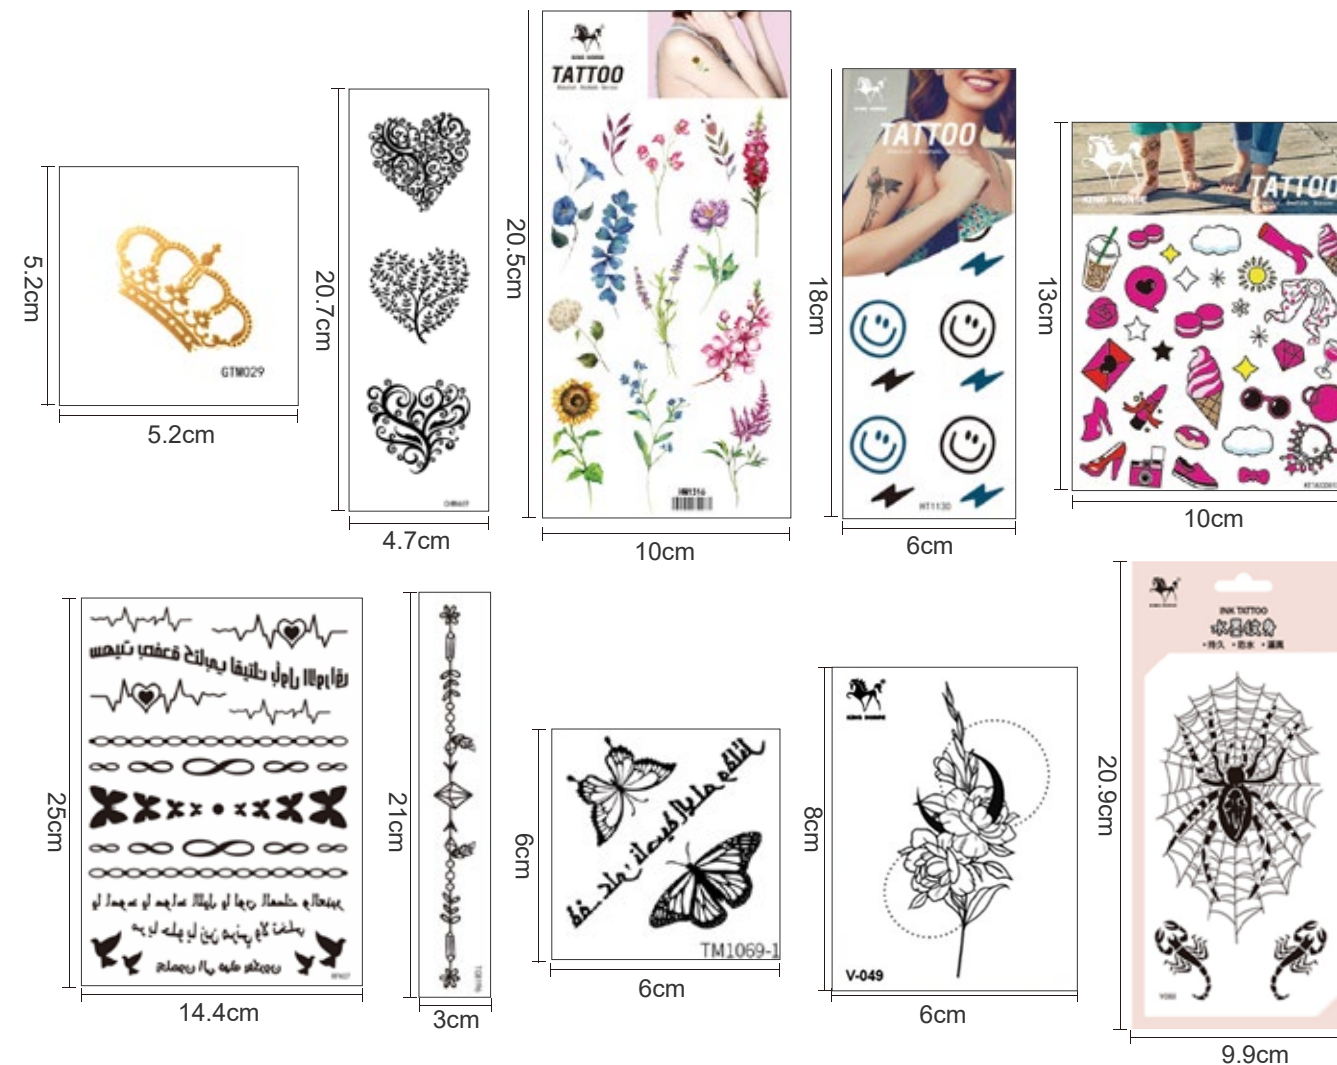

Our high-quality environmentally friendly ink has strong adhesion, durability, good impedance, strong color and excellent printing effect. It has little odor, does not contain benzophenone, tetramethyl benzophenone and bisphenol A, has high pigmentation intensity and good stability, is highly safe, and can be used by children.

02 Medical Nano Glue

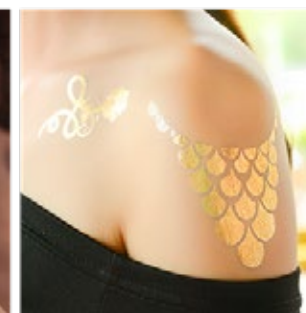

Our environmentally friendly glue has passed EN71-1-23 and other test certifications. It is more waterproof, oil-proof, and wear-resistant than ordinary tattoo glue. It has stable quality and good temperature resistance. We have passed it after 200 skin tests. It is safe, gentle, and breathable.

03 Imported transfer paper

We have high requirements for quality and are dedicated to creating high-quality tattoo stickers for you, so we use high-quality transfer paper with excellent quality and performance and stability.

Temporary tattoo stickers

Golden foil tattoo stickers

产品目录

One-reveal, one-paste
Patterns quickly adhere
to the skin

The color is realistic,
showing the ink-blue color
of the tattoo and does not
reflect light

No fear of scratching, no
fading when rubbed

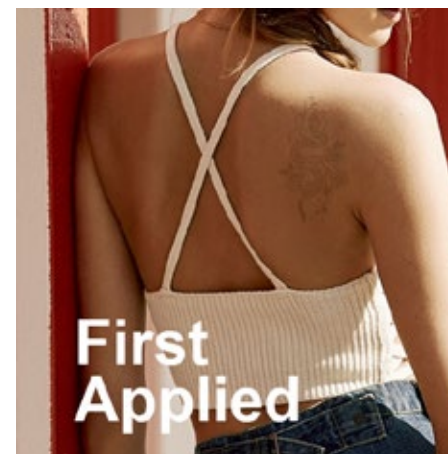

Safe and healthy
plant-extracted pigments
are harmless and
non-irritating

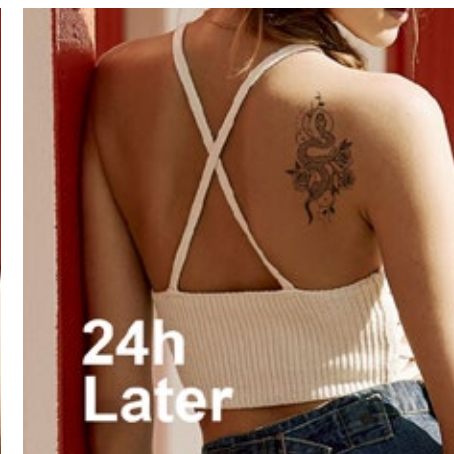

Fade evenly, say goodbye
to the embarrassing
fading period

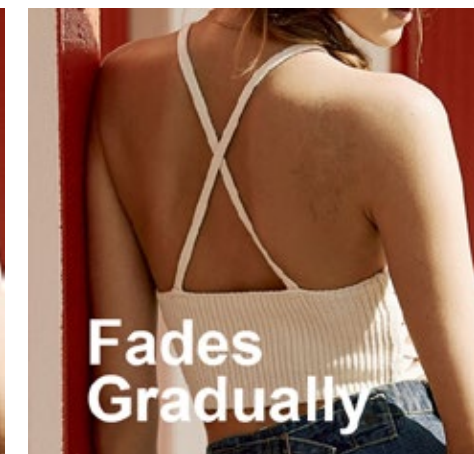

Clear and lasting pattern,
lasts about 7-14 days

First
Applied

24h
Later

Fades
Gradually

Clean the skin before
use

Tear off the protective
film

Press back and forth on
the area to be applied to
smooth it out and make
it stick tightly. Gently peel
off the bottom film

产品目录

包装正背面
Packaging (front & back)

One-reveal, one-paste
Patterns quickly adhere
to the skin

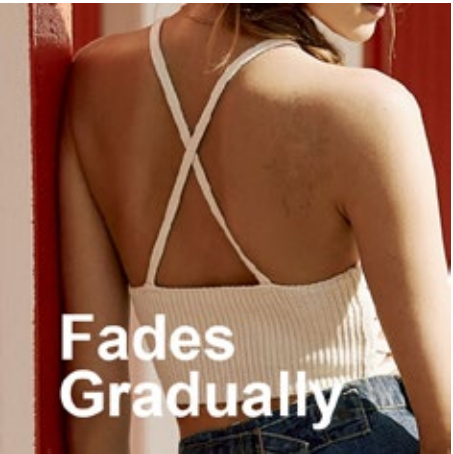

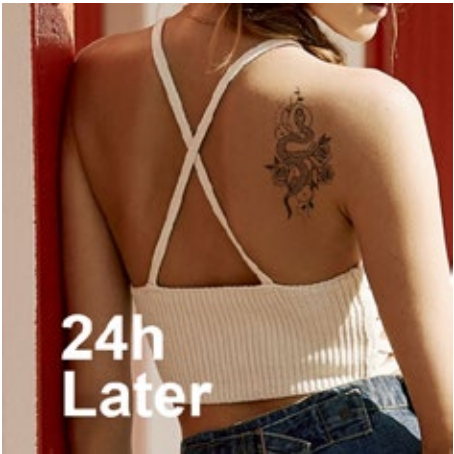

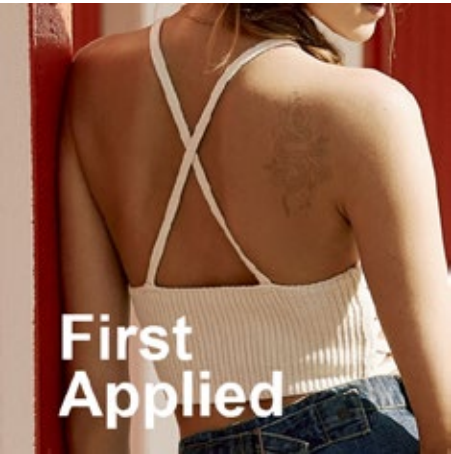

The color is realistic,
showing the ink-blue color
of the tattoo and does not
reflect light

No fear of scratching, no
fading when rubbed

Safe and healthy
plant-extracted pigments
are harmless and
non-irritating

Fade evenly, say goodbye
to the embarrassing
fading period

Clear and lasting pattern,
lasts about 7-14 days

Cut out the pattern you like and peel
off the transparent protective film

Put the printed pattern facing outwards
and the adhesive facing the skin, and
press gently to make the sticker fit the
skin completely

Use clean water or a damp cloth to soak
When first stick to the skin, it is slightly
shiny and transparent
15-30 seconds (be careful not to shift
the
pattern on the adhesive layer)

The pattern will slowly grow out in
12-24 hours

After 48-72 hours, the color will be fully
developed and can last for about 7-15
days

产品目录

Selected raw materials, products tested by international authoritative labs, meeting EU, US, and domestic cosmetic and toy standards.

Over 20 years of manufacturing experience, offering multiple processes: gold stamping, luminous, glitter and UV color-changing

It can last for 3-15 days and users can shower exercise as usual

For every piece of tattoo paper, we add a breathable layer, so the skin can breathe

Careful design

Same usage as regular tattoo sticker, just need 20 second to stick it on the skin

HOW TO USE

1

Ensure skin is clean, dry, and oil-free. Cut out the pattern you like and peel off the transparent protective film.

2

Place the tattoo face down on your skin. Hold a wet cloth firmly against the back for 15-30 seconds.

3

Gently peel away the backing paper.

4

Let the tattoo air dry completely.
