

# OPS

- Accessory for Interactive Smart Panel and Smart Blackboards

OPS is an open pluggable computer with a portable design, which integrates the latest Windows operating system and storage. Making it an ideal accessory for interactive smart panels, it can be used separately with a direct power adapter as well. This makes it a great match for interactive smart panels in the education and business fields.

- Pluggable Design
- OPS-C Type 80pin
- Windows 11 Pro System
- Intel CPU 4K/60Ghz
- Integrated Intel UHD Graphics
- HDMI/USB/Type-C Interfaces

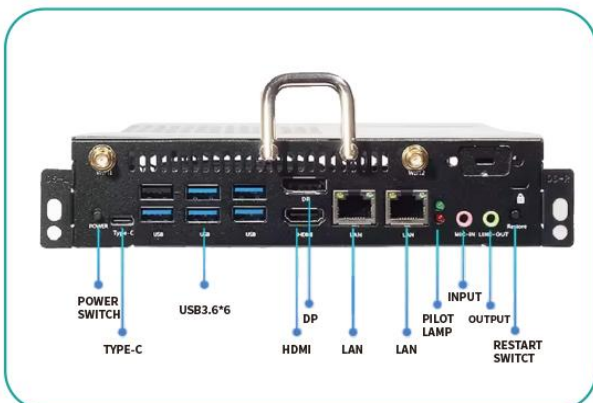

## Application

## Specifications

Model No.	FC-OPSXXXX
