

Digital Drawing Tablet

11.5 inch

Digital drawing tablet is a large-format drawing tablet designed for designers, illustrators, and online course instructors. It delivers a paper-like tactile feel for natural drawing, while its dual work areas allow seamless switching between your PC and Android devices. With 10 one-touch shortcut keys, a 330PPS report rate, and 5080 LPI resolution, every subtle stroke is captured with precision. The ultra-slim 6mm profile fits easily into any backpack, so you can start creating anytime, anywhere.

Draw like Paper, Switch like Magic!
