

# Disposable Pulse Lavage

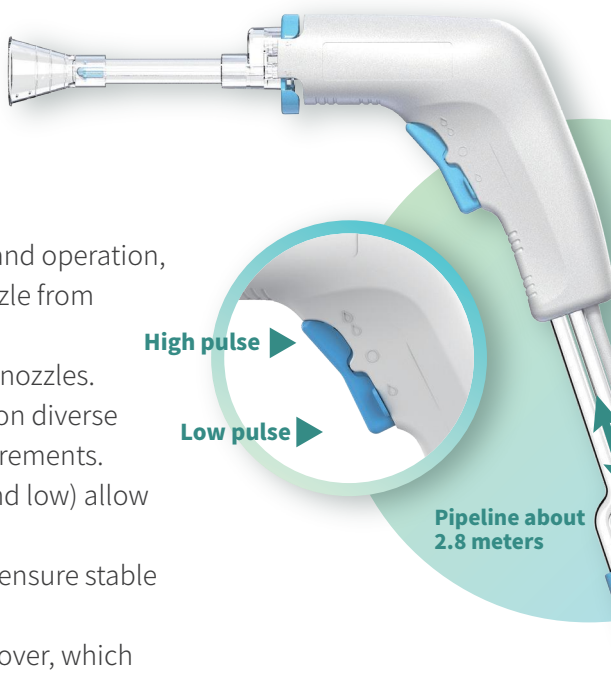

## Product Introduction

Splash cover

Splash shield

High pulse

Low pulse

Pipeline about  
2.8 meters

3 meters  
power cord

- Ergonomic design, easy installation and operation, with a nozzle lock to prevent the nozzle from falling off.
- Multi-functional, offering a variety of nozzles. These can be flexibly chosen based on diverse wound conditions and surgical requirements.
- Two pulse frequency settings (high and low) allow adjustment of flushing pressure.
- High-performance alkaline batteries ensure stable operation for a long time.
- The nozzle is equipped with splash cover, which effectively prevents the flushing fluid from splashing and protects the safety of medical staff.
