

Optical Endoscopy

Percutaneous Endoscopy

- High-definition optical system imported from Germany, optimized for treating spinal stenosis via dorsal and dorsolateral surgical approaches.
- Wear-resistant sapphire mirror surface, boasts full HD imaging, high resolution, low distortion, 80° wide-angle objective lens and optical system, capable of withstanding high temperature and high pressure for disinfection.
- Independent of X-ray fluoroscopy, with a built-in instrument channel, enabling direct visualization for the removal of compressive tissues without damaging extensive anatomical structures.
- Unrestricted by disc herniation size: Nerve root and dural sac remain undamaged throughout procedures.
- Maximally preserves the annulus fibrosus and maintains spinal stability.
- Precise decompression and foraminal enlargement.

Model

WAA001

Specification(mm)

Φ2.80/5.30	×130	30°
Φ3.75/6.30	×181	30°
Φ4.30/7.00	×181	30°
Φ7.10/10.00	×139	15°

Arthroscopy

- High definition optical system imported from Germany, wear-resistant sapphire mirror surface, full HD, high resolution, low distortion, 95° wide Angle objective lens and optical system.
- Independent of X-ray fluoroscopy, enabling direct visualization for the removal of compressive tissues without damaging extensive anatomical structures, such as herniated disc, vertebral plate and ligamentum flavum degeneration and hyperplasia.
- The welded outer tube ensures the system's airtightness and high temperature and high pressure sterilization performance.
- Suitable for shoulder, knee, hip, elbow, wrist joint inspection, diagnosis, real-time imaging during surgery, spinal UBE unilateral two-channel decompression.

Model	Specification(mm)	
WAB001	$\Phi 2.7 \times 140$	30°
	$\Phi 4.0 \times 175$	30°
	$\Phi 4.0 \times 175$	0°

Arthroscopy sheath

- Quick locking bayonet, easy to operate.
- Double flush port, flush and suck freely.

Model	Specification(mm)	
WAB002	$\Phi 2.7 \times 140$	30°
	$\Phi 4.0 \times 175$	30°
	$\Phi 4.0 \times 175$	0°

Inner Pin for Arthroscopy sheath

- Quick locking bayonet, easy to operate.

Model	Specification(mm)
WAB003	$\Phi 2.7 \times 140$
	$\Phi 4.0 \times 175$
