Remote control [Wireless remote]

VT-L620

① Power Switch
② Power Indicator Light
③ AC 9V Power Input
④ 485 Bus Control Interface
⑤ Antenna

Functional description :

1. For use with host units (compatible with host units VT-L6000 and VT-L6001)
2. Remote control range: 1000 meters in open, unobstructed terrain
3. After configuring each button on the remote control to correspond to the desired functions on the host device, you can use the remote to activate zone playback, power, or audio sources with a single press.
4. Dedicated stop button
5. Play/Pause button, Previous track, Next track
6. The wireless remote control receiver box can be placed farther away using an Ethernet cable to enable remote control over greater distances.
