Charging Case

VM-6204D

Functional description:

1.Supports simultaneous charging of up to 50 receivers.
2. Each charging slot features an independent LED status indicator.
3. Portable aluminum alloy case with two wheels on the bottom for easy carrying and transportation.
4. Intelligent charging management effectively protects battery lifespan while ensuring charging safety.

Technical specifications:

Power consumption	<102W
Power supply	AC 230V/50Hz
Dimensions (L× W × H)	600*400*200mm
Weight	11.25 kg
