

Functional description:

- 1. Power Supply: T3-phase5-wire system, AC 380V ±10%, frequency 50Hz ±5%
- 2. Rated Power: 12 channels × 4 kW; suitable for any load
- 3. 20A circuit breaker per channel, with overload and short- circuit protection (high- breaking- capacity air switch)
- 4. Phase Indicators: Separate indicator lights for phases A, B, and C
- 5. Features Universal 2- pin & 3- pin sockets for convenient use; high- quality terminal block input; single 40A bakelite connector output.
- 6. Dimensions: L480 × W420 × H145 mm
- 7. Unit weight: 10 kg

Technical specifications:

Model	VD-4009
Power supply	Three-phase five-wire system AC 380V ±10%
Rated Power	12 channels × 4 kW
Circuit breaker	20A/Channel
Dimensions	L480×W420×H145mm
Weight	10Kg
