380 Three-in-One Beam Light

VD-BS283

Functional description:

1. Ballast: Electronic ballast
2. LED LCD touchscreen + button controls, Chinese/English modes, intelligent display panel rotation function
3. Bulb power: 380W bulb
4. XY-axis motors, ultra-quiet, ultra-high-speed three-phase motors
5.Colors: 13 dichroic colors + white, with half-color effect
6.Fixed Gobos: 14 fixed gobos + white open position
7.Rotating Gobos: 9 interchangeable rotating 3D glass gobos + white open position
8.Prism Effects: Two independently selectable prism effects with combinable overlay and dynamic prism rotation (forward/reverse)
9.Optics: High-precision cemented multi-element lens assembly
10. Focus: Linear Focusing
11. Zoom: Linear Zoom
12. Total of 16 ultra-quiet motors, including two three-phase motors, 16-bit
13. Appearance: High-temperature-resistant alloy plastic

Technical specifications:

Model	VD-BS283
Ballast	Electronic ballast
Number of DMX channels	16/24 channels
Operating Mode	DMX512 Mode, Standalone Mode
Light bulb wattage	380W light bulb
Color temperature	8000K
average life expectancy	2000 hours
Dimming	0-100% linear adjustment
Strobe	Dual-shutter stroboscope (0.5–9 times per second)
Beam angle	2°-38°
Protection Rating	IP20
Package Dimensions	480 × 480 × 590 mm (1 unit/package)
Net Weight	19kg
Gross weight	22kg
