Daisy-chain Bus Expand Connector

VM-A1000L

Functional description:

1. Features an expandable network interface;
2. Features a power supply function;
3. Utilizing 100M network transmission enables daisy-chain connection with communication indication;
4. Can be connected to a power adapter for long-distance power supply;
5. Each interface supports IEEE 802.3, IEEE 802.3u, and IEEE 802.3x specifications, offering strong anti-interference capability

Technical specifications:

Total power consumption	2W
Network Port Specifications	IEEE802.3, IEEE802.3u, IEEE802.3x
Power Supply Mode	Power supply via power cord, Power over Ethernet (PoE)
Finish Color	Black
