

Function Description:

- 1、Desktop microphone design, delicate and elegant, exquisite craftsmanship with strong modern sense.
- 2、Supports full-duplex two-way intercom with various two-way terminals, paging microphones, etc. It also supports broadcasting and file playback to single points, zones or the whole area.
- 3、Supports one-click paging and broadcasting to any terminal. It can initiate broadcast paging calls to the whole area, zones or designated terminals with an unlimited number of zones.
- 4、Supports 6 parallel broadcasts (i.e., 6 network playback tasks simultaneously, each task can be minimized via a floating ball), and supports voice broadcast to the whole area or zones at the same time.
- 5、Supports UI theme switching, screen saver time setting and screen off time setting.
- 6、Equipped with monitoring function for monitoring ambient sound collected by other terminals. Supports real-time ambient sound monitoring for groups or terminals, cyclic monitoring and flexible monitoring time setting.
- 7、Supports on-demand playback of server media library content and playback on designated terminals or zones.
- 8、Equipped with a USB interface, supports on-demand or broadcast of audio files from a USB flash drive to designated broadcast terminals.
- 9、Equipped with a standard 3.5mm audio interface for connecting a headset or dedicated microphone for private hands-free talking.
- 10、Equipped with 1 channel line input, supports audio pickup and broadcast function, and can directly collect external audio signals via the Line-in interface for broadcasting.
- 11、Supports missed call reminders and quick callback function.
- 12、Supports online network upgrade and local USB upgrade.
- 13、Supports multi-party conference mode, including functions such as moderator transfer, participant invitation and participant removal.
- 14、Scheduled broadcasting: automatic playback at scheduled time and designated point for single points, zones or the whole area.
