# DRUM HANDLING SERIES

The STAXX drum handling series is designed to facilitate the lifting and emptying of 55-gallon metal drums and 210L plastic drums. Easier to transport drums to any height, up to a maximum lifting height of 250/430 mm, using a drum lifter. It is fitted with a compact and reliable mechanical system that secures the drum during handling.

## DP25A

- Ideal for lifting & transporting 55 gallon metal drum
- Suitable for use in narrow spaces
- Eagle-grip structure
- Rear swivel castors with brake

55gal  
(metal drum)

250kg

250mm

## DP35B

- Ideal for lifting and transporting 55 gallon metal drums and 210L plastic drums
- Suitable for use in narrow spaces
- Eagle-grip structure
- Rear swivel castors with brake

55gal (metal drum)  
210L (plastic drum)

350kg

250mm

## DP35C

- Ideal for lifting and transporting 55 gallon metal drums and 210L plastic drums
- Suitable for use in narrow spaces
- Eagle-grip structure
- Rear swivel castors with brake

55gal (metal drum)  
210L (plastic drum)

350kg

250mm

## DY35A

- Ideal for lifting and transporting 55 gallon metal drums and 210L plastic drums
- Foot-operated hydraulic pump
- Eagle-grip structure
- Rear swivel castors with brake

55gal (metal drum)  
210L (plastic drum)

350kg

430mm

## DY35B

- Ideal for lifting and transporting 55 gallon metal drums and 210L plastic drums
- Foot-operated hydraulic pump
- Eagle-grip structure
- 2 rear swivel castors with brake

55gal (metal drum)  
210L (plastic drum)

350kg

430mm

## DY35C

- Ideal for lifting and transporting 55 gallon metal drums and 210L plastic drums
- Foot-operated hydraulic pump
- Eagle-grip structure
- Rear swivel castors with brake

55gal (metal drum)  
210L (plastic drum)

350kg

430mm

# MANUAL DRUM STACKER

The STAXX manual drum stacker represents an innovative development in light-duty drum handling. It features a compact size and high-quality components, providing professional drum handling capabilities at minimal cost. It can be widely used in chemical plant, food and drink factory for the drum loading and unloading.

## DA450

- Special rolling technology manufactured C-shaped steel frame;
- Combined Eagle-grip structure and Anchor ear structure together, is suitable for steel drums and plastic drums;
- Manually hand rotate drums 180 degree, and can keep drums at any angle.

Adopt all copper reducer anti-rust and anti-leakage

Double-row chain

Bold steel chain link locking

55gal (metal drum)  
900x580mm (H x W)

450kg

50-1500mm

## WDS500

- Special rolling technology manufactured C-shaped steel frame;
- Combined Eagle-grip structure and Anchor ear structure together, is suitable for steel drums;
- Manually hand rotate drums 180 degree, and can keep drums at any angle.

Adopt all copper reducer anti-rust and anti-leakage

Double-row chain

Bold steel chain link locking

55gal (metal drum)  
900x580mm (H x W)

/2300/2800mm

# SEMI-ELECTRIC DRUM STACKER

STAXX semi-electric drum stacker is an innovative development for the light duty drum handling, it is with compact size and high-quality components which provide a professional drum handling capability with the minimum cost. It can be widely used in chemical plant, food and drink factory for the drum loading and unloading.

## YL520

- High quality hydraulic power unit and maintenance-free battery;
- Special rolling technology of C-type frame has a strong security
- Combined Eagle-grip and Anchor ear structure is suitable for steel drums & plastic drums;
- Electric lifting & electric rotating.

55gal (metal drum)  
210L (plastic drum)

520kg

1500mm

## YL520A

- High quality hydraulic power unit and maintenance-free battery;
- Special rolling technology of C-type frame has a strong security
- Combined Eagle-grip and Anchor ear structure is suitable for steel drums & plastic drums;
- Electric lifting & manual rotating.

55gal (metal drum)  
210L (plastic drum)

520kg

1500mm

## YL450

- 2300mm Lifting Height Drum Rotator With Two Stages
- High quality hydraulic power unit & maintenance-free battery;
- Anchor ear is for steel drums & plastic drums; Eagle-grip structure for steel drums;
- Combined Eagle-grip and Anchor ear structure, drums can be electric lifted & rotated 180 degree.
